

NEW Short Course in Sustainable Energy!

**Led by Steve Hoffman, Ph.D., Executive Director,
NW Center for Sustainability & Innovation [a nonprofit organization]
25 Years Experience as Sustainability Professional & Instructor**
Learn, Make a Difference, Prep for a New Career!

Learn more about the energy crisis. Help create a more sustainable future! Prepare for volunteer work or a career in sustainable energy, a field that is *so* crucial to our society and economy. Enjoy field trips & gain practical experience; engage in dynamic discussion; watch compelling films; read essential articles. The course can be taken in-person, online, or as a hybrid—at *your* pace, in *your* favored learning style. The instructor has 25+ years experience. Visit www.nwcenterforsustainability.org , or call 360-720-4378, for details.
